If reports are to be relied upon, Cox is making rapid gains for the presidency. His declaration that he would consult with the Senate and together they would arrive at the best settlement of the League of Nations proposition for this country possible under the circumstances. It is evident that the great majority of the people of the United States favor some sort of arrangement between the leading nations of the world which conditions such as have assumed during the past few years will be prevented in all the future. And this sentiment, regardless of political affiliation, Senator Hiram, has made the discovery of the fact and is changing his course accordingly. It is his position, is a definitely reached stage so far as viewed by the public. Undoubtedly the republican candidate does not desire to be thoroughly understood by voters until after Nov. 5, and he is succeeding admirably, in mystifying them by doubling on his own trail repeatedly. Article X is the supreme hope of contention in the campaign, and nothing could be more certain than that an overwhelming majority of all the people is against any connection with any arrangement between nations which would bind this country to send soldiers abroad at the command of any power except the congress of the United States then a declaration of war. Interpretation of article X varies diametrically and it depends upon the view of the majority for the result at the election.

## REDUCTION SALE

Including every article in our large stock of Mens and Boys Clothing and Furnishing Goods, represents our idea of honest merchandising, and the keeping of faith with our customers.

You hear much and read much about there being no great reductions in the wholesale markets in some of our lines. There have not been, but we are not so much concerned about that. There was no decrease in the cost of production of wheat, corn, cattle and hogs, yet the markets have felt a strong decline. The farmer must bear the loss. So it is in our line. This SALE was started because we felt our customers, nearly all farmers or dependant on farmers, were justly entitled to a reduction in clothing in keeping with reductions they are compelled to take on their products.

That our efforts have been appreciated is amply evinced by a splendid patronage and words of commendation from hundreds. Our reductions are genuine and every article is included. Again, this is our idea of fair and honest business; does it not also meet your ideas as well?

Then trade here and save money.
